

OIL-FIRED WATER BOILER STARFIRE SFH SERIES 5

UP TO 87% AFUE EFFICIENCY

The Starfire SFH Oil-Fired Water Boiler features a dependable cast iron heat exchanger and a HydroLevel High Limit and Circulator Relay Control with LWCO.

■ **Exceptional Heat Exchanger Design:**

Features a dependable cast iron heat exchanger with cast iron push nipple connections. The sections and push nipples expand at the same rate when heated. By using similar materials instead of less expensive gaskets or steel push nipples, the boiler maintains a water tight seal.

■ **Hydrolevel Operating Control:**

- Features digital display and diagnostics
- Adjusts the water temperature based on your heating system demand which further reduces your heating costs
- Built-in low water cut-off (LWCO) to protect the boiler from potentially dangerous low water conditions

- Utica Boilers backs our reliability with an industry leading limited 5-year parts warranty!

SFH FEATURES

- 5 Sizes are available:
 - 119, 140, 175, 224, 259 MBH Input (CH)
- Optional Tankless Domestic Hot Water Heater Coil
- 20 Year Non-Prorated Limited Warranty
5 Year Parts Limited Warranty (Residential)
- Assembled in the USA

There are some things you can always depend on...

(T) Tankless Coil Models

CONNECTIONS

Water Supply	2" NPT
Water Return	1-1/2" NPT
Oil Line	3/8" O.D. Copper Tubing for runs 50' or less 1/2" O.D. Copper Tubing for runs over 50'

ELECTRICAL

120 V ac, 60 hertz, 1 phase, less than 12 amps (15 amp circuit recommended)
--

STANDARD EQUIPMENT

Boiler Control: Hydrolevel Fuel Smart Hydrostat Control - combination Low Water Cut Off with boiler temperature reset and circulator control.
Heat Exchanger: Cast Iron Heat Exchanger with Cast Iron Push Nipples. Swing out burner door.
Combustion: Oil burner, target wall/liner.
Electrical: Wiring Harness, Burner Electrical Disconnect.
Other: Crated Boiler, Flush Jacket; Circulator 1-1/4", Temperature Pressure Gauge, Safety Relief Valve, Drain Valve.

OPTIONS

Burners: Beckett, Carlin, Riello; Pumps: Taco or Less Pump;
Tankless Coil

(1) Oil burner input based on 140,000 Btu/gal.

(2) Net AHRI Water Ratings shown are based on a piping and pickup allowance of 1.15. Consult manufacturer before selecting boiler for installations having unusual piping and pickup requirements, such as intermittent system operation, extensive piping.

(3) Heating Capacity and AFUE based on 13.1% CO₂ with -0.02" WC draft over fire and #1 smoke or less. Tested in accordance with U.S. Department of Energy test procedure.

(4) Refer to IOM and vent pipe manufacturer's instructions for equivalent lengths and approved venting materials.

(5) Capacity GPM applies to (T) models with a tankless coil.
